Don't mess with me cause you've got no one to love  
Don't look at me cause you've got no one to shove  
Drivin' in my 1964  
Oh when I see you on the road I put metal to the floor

Don't mess with me cause you've got no one to love  
Don't mess with me cause you've got no one to love  
Chasin' shadows on the wall  
Well I can hear, I can hear it call  
Oh baby, baby can't you see  
Don't mess with me cause you've got no one to love

Don't mess with me cause you've got no one to love  
Don't look at me cause you've got no one to shove  
Well I wish you were dead, I wish you were never alive  
If it was up to me I'd have you crucified

Don't mess with me cause you've got no one to love  
Don't mess with me cause you've got no one to love  
Chasin' shadows on the wall  
Well I can hear, I can hear it call  
Oh baby, baby can't you see  
Don't mess with me cause you've got no one to love

Don't mess with me cause you've got no one to love  
Don't look at me cause you've got no one to shove  
Sittin' in the bar, I light my cigarette  
When I look at your face I just wanna bash your head

Don't mess with me cause you've got no one to love  
Don't mess with me cause you've got no one to love  
Chasin' shadows on the wall  
Well I can hear, I can hear it call  
Oh baby, baby
