Remember I made you eat crab apple
And you were sick for a week
Then I stuck your sucky up the chimney
'Till you cried for a week
Then I killed your canary with the hair dryer
And kicked you just to see you bruise
Purple and blue
I was only joking my dear
Didn't mean to hurt you all those years
Thought that they were really laughter tears
I was only joking my dear
Oh dear
Remember I told everyone you went all the way
With that fella from Artane
And all the blokes called you Seven Stars
When we were on our way to Mass with Ma
Then to make matters worse when you blushed
I called you beetroot and tomato head
Purple and red
I was only joking my dear
Didn't mean to hurt you all these years
Thought that they were really laughter tears
I was only joking my dear
Remember I borrowed your favorite jeans
Took them in and cut them at the seams
So they'd fit me
You went ballistic when I called your boyfriend
Chancre head and made ashtrays from your
Bread records...
Oh well, what the hell, you got your own back
Purple and black
I was only joking my dear
Didn't mean to hurt you all these years
Thought that they were really laughter tears
I was only joking my dear
I was only joking my dear
Didn't mean to hurt you all those years
Thought that they were really laughter tears
I was only joking my dear
Oh dear
