"Between Earth And Sky"

You're screaming
Silence
You must whisper to the clouds
Move softly on the ground
The Earth will take all fear
In my land you are a god
Forever far and near

As above so below
Underneath the starry glow.
The Earth is spinning slow
Dance in the unknown.

As above so below
Underneath the starry glow.
The Earth is spinning slow
Dance in the unknown.

Hush now as the wind blows
Willows sway in time
As one we move with the breeze
We can be so high
We will not compromise

Between the Earth and the sky
Between the Earth and the sky

As above so below
Underneath the starry glow,
The Earth is spinning slow
Dance in the unknown.

As above so below
Underneath the starry glow,
The Earth is spinning slow
Dance in the unknown.
