Breathe, follow my command
Believe, that is in your hands
Grieve, as death by moon is slow
Heat of seventh sun will show

I am the white-tailed dove
Who understands
You are the reason
I harness these commands

Breathe the air while you still can
Leave all tomorrow's plans
Here, the calm before the storm
Heed the message of the Dawn

I am the wind and rain
I the summer snow
You are the glistening
In the afterglow
I follow patiently
I watch destruction grow
I listen for the signs
Of moonlight to show me
I am, because I am, because I am

Feel the earth tremble at night
We believe that we're all right
We gather for the storm
We will die before we're born

I am the white-tailed dove
Who understands
You are the reason
I harness these commands

Breathe, follow my command
Believe, that is in your hands
Grieve, as death by moon is slow
Heat of seventh sun will show

I am the wind and rain
I the summer snow

You are the glistening
In the afterglow
I follow patiently
I watch destruction grow
I listen for the signs
Of moonlight to show me
I am, because I am, because I am
