"Too Deep"

Too deep
The water glistens
Too deep
Whisper and listen
Too deep
You put me under a trance

Bubbles rise
I breathe the light
Mesmerized by how beautiful we are
Suspended
Pieces of stars

Too deep
That you are witty
Too deep
So tired of pity
Too deep
So tired of hating it all

Universe says it's alright
Universe says it's alright

So listen
The water glistens
Too deep
The water glistens
Too deep
The water glistens
Too deep
I'm going under in a trance
Too deep
