I'm feeling really down... today
I'm feeling really... under the weather;
but it is no problem, or lack of pleasure,

it's just the weather.

Rain keeps coming down around
and I can feel the ... low pressure
Whenever that it stops, it turns to ICE

I'm feeling really down.

rain, rain, rain keeps coming down, down, down
rain, rain, rain, rain keeps coming down
on the ground
rain, rain, rain, rain keeps coming down
rain, rain, rain, keeps coming down

Whenever it's like this... people
Always want to... pass the buck
But I don't really give...
I'm feeling really...

rain, rain, rain keeps coming down, down, down
rain, rain, rain, rain keeps coming down
on the ground
rain, rain, rain, rain keeps coming down
rain, rain, rain, keeps coming down

I'm feeling really... guilty
I'm feeling like I'm... owing money
But I don't even know anybody

I'm feeling really down
