

Daniel O'Donnell ''Hollywood''

Visit "Hollywood" on MotoLyrics.com

Hey, this could be cool Cause we could be together, but nothing lasts forever. Me, I'll be your fool Pick you up when you fall down

[Chorus:] And you are cross the dancefloor Let me buy you a drink or two And you could be my star for weekends Do you like your Hollywood? As far as I'm concerned, the lesson's been learned At least that's what I understood

That's right! Hey!, tell your dady onether week out You're not come all your mind I'm as fine she come back myself Oh!, a few you come all at last

Come on!

What are there you no come back? You stayed so good but you stayed so bad So what are there with you come around? You come this time out What are there you down?

Let me be star for weekends Do you like your Hollywood? As far as I'm concerned, the lesson's been learned At least that's what I understood

Let me be star for weekends Do you like your Hollywood? As far as I'm concerned, the lesson's been learned At least that's what I understood
