"Old Loves Never Die"

Visit "[Old Loves Never Die](#)" on MotoLyrics.com

Don't you think we've come much too far together
To just give up and say words like goodbye
After all we've been through with each other
I still believe that old loves never die.

The least that we can do is talk it over
And consider giving our love one more try
I think we owe that much to one another
And I still believe that old loves never die.

If our love dies it won't go to Heaven
'Cause it's already been there all the time
If you must go I hope that you remember
I still believe that old loves never die.

--- Instrumental ---

If you must go I hope that you remember
I still believe that old loves never die...
