Stand beside me, stand beside me  
For if I should lose you I just couldn't get anywhere  
Stand beside me, stand beside me  
You're the only one who ever made me care

I can't stand to think that I might be alone  
Not alone again, not the way it was back then.  
Before you walked into my heart  
And told me we'd never part so stand beside me  
Don't ever let me be alone again.

Stand beside me, stand beside me  
For if I should lose you I just couldn't get anywhere  
Stand beside me, stand beside me  
You're the only one who ever made me care.

--- Instrumental ---

There'll be time when everything goes wrong  
But darlingm I won't even care if I know you're stand  
there  
No matter what we have to do together we can see it  
through  
So stand beside me and I'll be standing right there next  
to you.

Stand beside me, stand beside me  
For if I should lose you I just couldn't get anywhere  
Stand beside me, stand beside me  
You're the only one who ever made me care.

Stand beside me, stand beside me  
For if I should lose you I just couldn't get anywhere  
Stand beside me, stand beside me  
You're the only one who ever made me care.

Yes, you're the only one who ever made me care...
