Keep it tight, it's all right  
Everybody's on down the boulevard tonight  
Say, it's OK, looking for a beam and a place to be yeah  
I want you to sow right through ya,  
Keep the light on your shoulder.  
Sometimes life's just a crawl I know it  
It's almost got enough of me.

Keeping it tight, it's all right  
Everyone's had a good time tonight.  
So play, it's the game, everybody's got a price to pay  
Don't cheat, give up your seat.  
Everything is moving come along with me now.  
So play, so stay, so everything has room tonight.  
I've got something to sow right through you  
Keep the light on your shoulder.  
Since all our shadows were thrown down, we've been  
Keeping the light on ourselves
