"Room For Flying"

Settle down
It's time to make my move.
A sunny sky
Another day with you
It's closer now than ever was
I'm letting go of everything so

[Chorus]

She's got room for flying
Captures almost everything she tries for
She's got room for flying
Captures your soul, she's around you
She won't hurt you at all.

A troubled mind'
Is more than I could lose
And more than once
It's tried to foil my mood
It's closer now than ever was
Another sign I'm yet to find but

She's got room for flying
Captures almost everything she tries for
She's got room for flying
Captures your soul, she's around you
She won't hurt you at all.
