"It Hurts"

Visit "[It Hurts](#)" on MotoLyrics.com

I know what you feel
When somebody has to go
It's hurts you deep inside
All you do is cry
It might not just be pain
But usually it hurts inside

When you feel down and low
It makes cry and you don't wanna show
You wanna commit suicide
After all you always lie
I know it hurts deep iside
All you do is cry
It might not just be pain
But it usually hurts inside

When you try to pick a the phone
Your head says go but your heart says no

It hurts and you don't wanna cry
But then the tears come out
And you wanna die
I know it hurts deep iside
All you do is cry
It might not just be pain
But it usually hurts inside

I will come comfort you
Make you happy when your down
I'll let you wear the king's crown
Make you smile have a laugh
After all it hurts inside
I know it hurts deep iside
All you do is cry
It might not just be pain
But it usually hurts inside
