Now you can be whoever you wanna be
But I'm gonna stay here without you
After all that I've done for you
Things weren't that serious baby

You weren't just a simple girl
You were mine to keep and hold in the night
Cause you weren't just my simple girl
I loved you and why did you have to go that way?

I know things weren't always right
I could feel you and you would not hold me tight
But it was you
I ain't gonna come crawling back to you

You weren't just a simple girl

You were mine to keep and hold in the night
Cause you weren't just my simple girl
I loved you and why did you have to go that way?

Simple girl
Simple girl
You weren't my simple girl
Hold me tight
Hold you tight
Through the night
Simple girl no simple girl
You ain't my simple girl

You weren't just a simple girl
You were mine to keep and hold in the night
Cause you weren't just my simple girl
I loved you and why did you have to go that way?
