I had you we had that lovely thing
Then you went and let it go
I wasn't fucking lonely
Baby
I need you all night long

Why won't you call me?
After all we've been through?
Your the most beautiful thing
I've ever seen

What happened we got it on
I thought you would sing my song
But no no no

You ruined it all
Got hooked up with that guy
From the business stall

Why won't you call me?
After all we've been through?
Your the most beautiful thing
I've ever seen

Why won't you call me?
After all we've been through?
Your the most beautiful thing
I've ever seen
