(Daniel Oliver)

Why did we leave each other?
Why couldn't we agree?
I know we love each other
But we cannot see

Cos I've been to far away from you
I need to hold me
Make me strong when I am down
Far from me too long
Gotta get back together
Cos I love you and might say...

(Bridie)

I know that we could make things work
But have I understand that we could stuff it up again
Trying to say that I love you
And like you to stay...

Cos I've been to far away from you

I need to hold me
Make me strong when I am down
Far from me too long
Gotta get back together
Cos I love you and might say...

(Daniel and Bridie)

Feel each other touch each other
We're supposedly sane
Can't you stand horrible noise
Cos I can feel your voice...

Cos I've been to far away from you
I need to hold me
Make me strong when I am down
Far from me too long
Gotta get back together
Cos I love you and might say...
