"Wanna Walk Away"

No one said we had to be together
No one said it'd last forever
But at long last I must survive
But you can't say "I'll just say goodbye"
Hey you said you'd dump him yesterday
Hey you said you told him to fuck off the other way

Now I just wanna walk away
I can't live my life today
I've showed you my body
I've kissed more than your hand
I wanna walk away from being your man

Don't say that I gotta hold you
Don't play cause I woulda killed you
I needed to take a piss anyway
Don't say it's gonna be the last day

I'm no freaking one night stand man

Now I just wanna walk away
I can't live my life today
I've showed you my body
I've kissed more than your hand
I wanna walk away from being your man

Why did you ever go out with me?
Why did you say "Oh love me"?
Can you take the pain today?
I betcha can't cause I'm heading my way

Now I just wanna walk away
I can't live my life today
I've showed you my body
I've kissed more than your hand
I wanna walk away from being your man
