From cathedral spires  
We rull our filthy hordes  
Sickening wolves in sheepsclotnes  
Come to mass and give  
Your souls and flesh  
This is rape for a cause

Kneel for me  
As I breed my sickness in you

Prey on the innocent  
This is our agenda  
Defiling the young to make them into us  
Come to mass and give  
Give your soul and flesh  
This is rape for a cause

Congregation of the sick  
Congregation of the foul

Spawning the soulless  
To feed our needs  
Feating the weak to quench our hunger

Congregation of the sick  
Congregation of the foul

Kneel for me  
As I breed my sickness in you
