

## **Riccardo Cocciante** **"Beatles Generation"**

Visit "[Beatles Generation](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Same places I recall  
Faces I can see  
So clear  
From back before the fall  
I can see them all  
Still here

The Beatles generation  
The Beatles generation  
Is still on my mind  
The Beatles generation  
The Beatles generation  
And time steps aside

I close my eyes and see (Yes I can see)  
Those days of mystery (They're here with me)  
And love (Yesterday's with me forever)  
We actually believed (I still believe)  
That love was all you need (Yesterday now and forever)

The Beatles generation  
The Beatles generation  
The world in a song  
The Beatles generation  
Across the generations  
The music plays on...

And I hear the music (Tonight)  
Tonight I hear the music (Across time)  
In every other music  
Just listen, it's there (It's still there)  
Across the generation (Time flies)  
The Beatles generation  
It's everywhere (Everywhere)

In everything I see  
And everything I hear  
It's clear  
They're here
