Two Shot of hate from your mouth
This girl doesn't have anything to talk about

Her tears never show sorrow
Her life is always followed

She fears everything
She don't want to change it up because she will be the
blame
There still making a commitment against her
Why they pick on this emo girl

Her tears never show sorrow
Her life is always followed

Her tears never show sorrow
Her life is always followed

Little Emo Girl
Little Emo Girl
Little Emo Girl
You'll be alright
