I've got these feelings, alive in my head  
Don't listen to reason, they only see red  
And I'm coming to get you, coming to get you  
I know I'm gonna live through this,  
And when the wound on my back heals  
I'm coming to get you, coming to get you  
Alright!

Just look at me, Im living proof, that time heals nothing!  
Just look at me, Im living proof, that time heals nothing!

The bullet is logged in my skull,  
I refuse less and risk it all  
'cause I'm coming to get you, coming to get you  
I know I'm gonna live through this,  
And when the wound on my back heals  
I'm coming to get you, coming to get you  
Alright!

Just look at me, Im living proof, that time heals nothing!  
Just look at me, Im living proof, that time heals nothing!

I've got these feelings, alive in my head  
Don't listen to reason, they only see red  
And I'm coming to get you, coming to get you  
On the day I find you the sun will shine,  
The birds will sing, everything will be right  
I'm coming to get you, And I'm coming to get you

Living Proof!

Alright!

Just look at me, Im living proof, that time heals nothing!  
Just look at me, Im living proof, that time heals nothing!
