Say my name baby
We love you RB
Check you everyday on MTV
Who da man, Who da man baby

When I was young
I was a class clown with glasses
Yknow the type That you could burn mad ass with
Got no romance
I was a joke to look at
So I had to be the funny man
Like who da man
But on my 1st day I watched my car break down
had to be the missing pounds for petrol
I was petrol, we both had to push the car up the hill
To Kentucky fried chill
All the people on the bus died laughing
Aint that Richard Blackwood, boy you werent mackin
One day lma make you eat your words
In the back of my mind I heard

CHORUS

Mama used to say take your time young man
Mama used to say dont you rush to get old
Mama used to say take it in your stride
and live your life

On the comedy circuit they were telling me to do what
the Americans do
According to who...
Is that a real Soul II Soul stay true
And my uncle used to say stay you the brave crew

Now Im getting pounds and hugs from the people I
check for
From Birmingham to Brixton and more.
Did enough shows, with no dough, no podiums and
only 2 people in the coliseum
Cant go from 1st to 5th gear
Looking in my rear cause Im bound to hear
One day when I had you back wheres my drink at

There you go tap water - Thames finest
Its only natural from a minus, who went to a plus
UK Black bound to bus- only cause I knew who to trust

CHORUS

Say my name baby, We love you RB
Check you everyday on MTV, who da man baby
You da man big boo, no matter what you do we got love
for you
Say my name girlfriend - Ohh We love you RB
Check you everyday on MTV

Look son if you wanna front on me
Ima single you out everyday on MTV
And if you want more Channel 4 know the score
Rollin with the Richard Blackwood show - Where to go !
Skys the limit, and my light you cant dim it
On the silver screen Ima get up in it in a minute
It aint about a beamer or the Benz
I wanna raise the flag like Loose ends - What !!!!

CHORUS

What ysaying - heh
Say my name, say my name
