they want us to tell them  
what to burn into the groove  
we're just gonna sit  
and let them make the first move  
the radio obsession  
doesn't mean a thing to me  
i don't like first impressions  
and i don't watch much tv

i don't want to think about it  
who, what, when, or where  
i don't want to think about it  
i don't really care  
i don't want to think about  
creating something new  
i don't want to think about it  
because i've got much better  
things to do

i don't want to think about it  
i don't want to see  
i don't want to know  
the kind of fool  
they'll make of me  
the public gets what they deserve  
not what they demand  
unless we all decide to be  
a business, not a band

i don't want to think about it  
who, what, when, or where  
i don't want to think about it  
i don't really care  
i don't want to think about  
creating something new  
i don't want to think about it  
because i've got much better  
things to do - just like you

it's just an awful nightmare  
and i get these awful headaches  
and i can't get any sleep at night

i don't know what to do  
i don't know where to turn  
or what to think  
i haven't got a clue  
i don't know what's come over me  
i'm getting dizzy  
please will someone make it stop
