lyrics Mike P., music Mike P. + James L.)

Things don't seem to be as easy
As they used to be
It's getting harder everyday
To think of better things to say
About what's going on around you
And what's happening inside you
When it's time to change you won't know how
(chorus)

It won't matter years from now
Everything turns grey
Or do or say
No matter what you think

This is it, the darkest hour
How our minds create an atmosphere
Isn't it depressing
That won't happen here
Unless we make some new demands
You know I wish we could but it's too late
For senseless minds that love to hate
To grasp the future in our hands
No matter what they think
Everything turns grey
Or do or say

(chorus)
