

## Agent Orange "It's in Your Head"

Visit "[It's in Your Head](#)" on MotoLyrics.com

Yeah, I can hear you even now  
Telling me here's what makes this world go 'round  
And again, I can see that you believe  
Isn't that what it means to be naive?

Think ahead and watch your step  
And do your best to make the most  
Of every chance that you can get  
It's in your thoughts, it's on your mind  
It's in your head

Hey, you, this is not your lucky day  
Would I lie? No, I'm behind you all the way  
What will you do when this thing hits you like a bomb?  
You will laugh, ha and you'll know that I was wrong

Be prepared 'coz here it comes  
Give it everything you've got  
Yeah, this is it and like I said  
It's in your thoughts, it's on your mind  
It's in your head

I don't know, sometimes I just can't believe my eyes  
The things I see, things that really  
Mean the world to me, just falling down  
And I wonder how long will it last  
I don't know, all I know is we have got to do our best

So think ahead and watch your step  
And do your best to make the most  
Of every chance that you can get  
It's in your thoughts, it's on your mind  
It's in your head

Here it comes, give it everything you've got  
Yeah, this is it and like I said  
It's in your thoughts, it's on your mind  
It's in your head
