You know you don't have time to sit around  
Waiting for the perfect chance to come your way  
And you'll never find the answers to the questions you  
ask  
By listening to what other people say

You've got to let originality be your inspiration  
You know plagiarism is a crime  
(Dexter!)  
Even if it turns out to be a miserable disaster  
You will live to try another time that's why I say

Make up your mind and do what you want to do

Well you've got to be joking, if you say your thoughts  
Have fallen into someone else's hands  
And you've got to be crazy, if you think your life  
Is just a mess of threats and tough demands

Well you just can't be that far away from what you want  
To think that nothing's gonna get you there  
'Cuz the truth is you were born with everything you  
need  
No, you don't have to be a billionaire all you have to do  
is

Make up your mind and do what you want to do

If you're gonna do it, do it right!  
In the end you're gonna see that it was worth your time  
The results are gonna make you smile  
There's really nothing to it, if you use your head  
And concentrate for just a little while

All it takes is just a twist of your wild imagination  
New ideas will come tumbling out  
Can you feel the time slipping?  
Don't keep the world waiting  
Listen up, if you can hear me shout

Make up your mind and do what you want to do
