Well, tonight it's the night that we got the truck  
Goin' downtown, gonna beat up drunks  
Your turn to drive, I'll bring the beer  
It's the late night shift, no one to fear

Let's ride, ride how we ride  
Let's ride, low ride

Well, it's a roundup time  
Where the good whores meet  
Gonna drag one screaming off the street  
And ride, ride how we ride

Got a black uniform and a silver badge  
Playin' cops for real, playin' cops for  
pay  
Let's ride, low ride, yeah

Well, pull down your dress, here it's a kick in the  
ass  
Gonna beat your back blue 'til you shit in your  
pants  
Don't move, child, got a big black stick  
There's three of us, babe so suck on my dick

Let's ride, ride how we ride  
Let's ride, low ride

Well, the left newspapers might whine a bit  
But the guys at the station don't give a shit  
Dispatch calls, are you doin' something  
wicked?  
No siree, Jack, we're just givin' tickets

Let's ride, ride, how we ride  
Let's ride, ride, how we ride  
Let's ride, ride, how we ride  
Let's ride, low ride
