Danko Jones "Baby hates Me"

My favourite situation
Are always sticky kinds
I'll be the first to cast stones
I don't let sleeping dogs lie

I'll sing it from a mountain
Just take me to the top
I'll scream 'til my lungs pop
I'll stand here 'til I drop.

The feeling, Is Leaving
It's all gone, It's deceiving
If we don't stop put me in a coffin
Cause you and I had absolutely nothing in common

Baby! I know you hate me
And you can't shake me

You make me rock solid, hot and bothered, it don't
matter
I can shake you

You used to be so special
Now I'm bored all the time
You think the same of me too
Just say it don't be shy!

The feeling, is leaving
It's all gone, it's deceiving
If we don't stop put me in a coffin
Cause you and I had absolutely nothing in common

-I used to want you-
Baby
-Now I don't want to-
I know you hate me
-Time to start moving on-
But you still crave me
You just amaze me
-I used to want you-

And you can change me
-Now I don't want to-

You make me rock solid, hot and bothered
It don't matter i can shake you

Ohh baby, it's been a long time comin
And it's just the way
It;s gotta be
But I know this is one thing..
One thing we won't fight about
And you can put my name on the dotted line

Yeah Baby! I know you hate me
-I used to want you-
But you still crave me
-Now I don't want to-
You just amaze me
-Time has stopped moving on-
And you can't shake me
I know you hate me
-I used to want you-
And you can't shake me
-Now I don't want to-

You make me rock solid, hot and bothered
It don't matter I can shake you
