"Cadillac"

I bought a white cadillac
I bought it off my Mom and Dad
They said don't forget the keys son
So you can get it on

I keep the backseat for loving
I like to drive upfront
And when we're making out
I keep your boy in the trunk

I like it when you're licking ice cream
It gets all over the upholstery
Don't like it hard I like it soft
So I can lick it off
And when its midnight
And I'm about to drive by
You got to kiss me on my cheek
Before we say goodbye

(Repeat Verse 1 & 2)
