When she walks out all the boys on the block start to yell out  
They open up their mouths but they don't know what they're talking about  
She's in little need of someone to hold tonight  
But if you make a move I'm willing to bet that she just might  
Everytime she looks away you look away too  
I know what you're thinking you don't know what to do

You got to say, you got to say  
I want you more than anything  
I want you more than anything  
I want you more than anything  
I do, I do, I do

Time is wasting opportunity knocks then it's gone  
Makes sense to speak from the heart 'cause you can never go wrong  
Too many people telling too many lies  
Go with what you know when the feeling's inside  
I know you can do it if you start thinking yes  
Yes I can, yes I will, yes I will pass the test

You got to say, you got to say  
You got to say, you got to say  
I want you more than anything  
I want you more than anything  
I want you more than anything  
I do, I do, I do

When she walks out all the boys on the block start to yell out  
They open up their mouths but they don't know what they're talking about  
She's in little need of someone to hold tonight  
But if you make a move I'm willing to bet that she just might  
Every time she looks away you look away too  
I know what you're thinking you don't know what to do

You got to say, you got to say

You got to say, you got to say  
I want you more than anything  
I want you more than anything  
I want you more than anything  
I do, I do, I do, I really, really do
