I followed the rules till the volume knobs broke  
I stand beside the PA all night  
As the old saying goes if it's too loud you're too old  
I like to do things right

But it's a quarter to ten and I slept in again  
I can hear the alarm clock go off  
You can scream in my ear but I won't hear a thing  
Even if you dropped a bomb

Because it's never, it's never too loud  
It's never, it's never too loud

You can kick and scream, blow your top and blow off  
steam  
Don't matter 'cause I won't hear shit  
Don't think for a second that it doesn't bother me, man  
Going deaf is a son of a bitch

Because it's never, it's never too loud  
It's never, it's never too loud

And the louder you swear it gets  
The more I know I'm going deaf

'Cause it's never, it's never too loud  
It's never, it's never too loud  
Because it's never, it's never too loud  
It's never, it's never too loud
