### VERSE 1

It's gettin lod, I've done this all before,  
Hotel to motel, motel means all alone,  
I sense a reoccurance, it's happening again,  
So let's do it one more time before we go to Hell.

### CHORUS

Grab the keys, start the car,  
Take me home to where my records are,  
Hit the gas, take the open road,  
I'm turning on the stereo first thing when I get home

### VERSE 2

Time's movin on, I haven't slept for days  
It's eating me up inside, inside I've slipped away  
I know it's getting closer, I feel 'em almost there  
Still one more time can't hurt me, but I won't she'd a  
tear

### CHORUS

### VERSE 3

The time has come, been waitin for so long  
It's written on my face, my face is turned to stone  
Not askin for your sympathy, I just want out of here  
So scratch the day off the month, and say the coast is  
clear

### CHORUS

Grab the keys, start the car  
Take me home, to where my records are  
Hit the gas, take the open road  
I've had enough, now take me home
