"White Cadillac"

I bought a white cadillac
I bought it off my mom and dad
They said don't forget the keys son,
so you can get it on

I keep the backseat for lovin'
I like to drive up front
and when we're making out
I keep your boy in the trunk

I like it when you're lickin' ice cream
It gets all over the upholstery
don't like it hard, I like it soft
so I can lick it off
and when it's midnight
and I'm about to drive by
you better kiss me on my cheek
before we say goodbye

(drive me home)

I bought a white cadillac
I bought it off my mom and dad
They said don't forget the keys son,
so you can get it on

I keep the backseat for lovin'
I like to drive up front
and when we're making out
I keep your boyfriend in the trunk
