There in my darkest hour
Somehow you knew what I felt
And just in the nick of time
You saved me from myself

Didn't know I could cut through my defenses
And see through the mask
I figured you must want something from me
But you never asked

I just had to call and you were always there
Think you must have been the answer to my prayer

With you I've got nothing to hide
My heart is starting to pound
Now, the walls are tumbling down

I wish I could find the words
That linger just out of reach
I see myself in your eyes
And lose my power of speech

I am someone now that I don't recognize
It took someone like you to shatter my disguise

Now, I've got nothing to hide
My heart's remembering to pound
And the walls are finally coming down

Yeah, I've got nothing to hide
All that I needed was you around
Now the walls are coming down

Head in the sky, feeling just like
Some kind of lovesick child
I finally pulled through and I owe it to you
Don't want to keep it inside

I am someone now that I don't recognize
Oh, I'm healing, I'm believing, you made me realize

Now, I've got nothing to hide

My heart is starting to pound
I can feel the walls coming down

Yeah, yeah, I've got nothing to hide
All that I needed was you around
Now the walls are coming down

Yeah, I've got nothing to hide
My heart is starting to pound
And the walls, coming down

Yeah, yeah, yeah, I've got nothing to hide
All that I needed was you around
Coming down
