How did you arrive in the single moment
That I looked away
Your life waits for you
In every second
And every word you say

For all the memories remaining
I need to let you know

From the hardest times to the hills you climb
I'll be your warmest summer
When your dreams run dry, I am on your
side
To pull you out from under
When all of your leaves are golden
Everyone's arms are open, but I'll be there
When November falls

I am with you when I hear you breathing
And when I'm far away
Surrender to your fears of falling
Cause I won't let you go

Chorus

When your hopes have been gunned down
And when you get lost, I will find you
I'll hear you calling out my name, oh

Chorus
