I'm not a loco with motive to suture myself
I've been a cynic for too many years
Playing doctor and nurse, it can be good for your health
I've seen clinics with those gimmicks in Tangiers
But if you open your heart to a smooth operator
He'll take you for all that you've got
He'll hand you a curse that'll be with you later
It'll shake you the way he takes off like a shot
You need a bit of
Ooooh...Shock Treatment
Gets you jumping like a real live wire
Need a bit of
Ooooh...Shock Treatment
So look out Mister, don't you blow your last resistor
For a vista that'll mystify ya
You're blinded by romance, you're blinded by science
You're condition is critically grave
But don't expect mercy from such an alliance
Suspicion of traditions so new wave
You need a bit of
Ooooh...Shock Treatment
Gets you jumping like a real live wire
Need a bit of
Ooooh...Shock Treatment
So look out Mister, don't you blow your last resistor
For a sister that'll certify ya (fy ya, fy ya)
You need a bit of
Ooooh...Shock Treatment
Gets you jumping like a real live wire
You need a bit of
Ooooh...Shock Treatment
So look out Mister, don't you blow your last resistor
For a sister that'll certify ya (fy ya, fy ya, fy ya)
