(Uh huh) (Hey) (Uh huh)
Clap your hands
This is the moment you've all been waiting for
This is the feeling you get
When all hell breaks loose
And you're losing control of yourself
Get up and dance
Let your hair fall down
Drippin' sweat on the floor
You don't care anymore
This is the coming for some

Thunder and lightning
Constantly striking
Like two worlds colliding
We of all
We of all

(Uh huh)

We get down
Cut it loose, take it off
Breathe it in, scream and shout
Hey!
It's the moment you've been talkin' about
The beginning of the rest of your life
Celebrate!
Turn it up, let it go
Get it on, feel the floor
Let it take over your body
Till you lose all control

Fire and water
Burnin' desires
Sung by the choir
We get up
We get up

(Uh huh) (Hey) (Uh huh)

We get up
We get up

Clap your hands, clap your hands
It's alright
Clap your hands, clap your hands
It's alright
Clap your hands, clap your hands
All through the night

(Uh huh)

Clap your hands
This is the moment you've all been waiting for
This is the feeling you get
When all hell breaks loose

Bring the beat back (x4)

Clap your hands (clap your hands, clap your hands)
(Uh huh)
Clap your hands (clap your hands, clap your hands)
All through the night
(X3)

Clap your hands
