If it's comin' through quite clearly
Like the sun in a clouded sky
If it's comin' through to you don't let it ride

Many times I've seen it happen--
Many times then slip away
Someone's looking for tomorrow
And forgets about today
There's a story in the song
You can get a feeling to belong
Let's get it on

All the times you heard the music
All the times it moved your soul
And you found yourself believing in rock and roll
There is music here for certain
There's enough and maybe more
And I'll let you know a secret
It's for you and that's for sure
Like an arrow straight and true
There ain't nothin' you can do
When the sights are on you

Am I gettin' through
Is it enough that you just make do
Are you satisfied
To drift with the tide
Is it taking hold
Well whatever else you've been told
And you're long overdue
Am I gettin' through

Like the dawn out in the desert
You can't make the darkness stay
Or live within a shadow
Tryin' to keep the light away
Like an arrow straight and true
There ain't nothin' you can do
When the sight's on you.
