Oh darlin' hold on  
Take it another step further along  
Rest assured when your life is through  
You gave your heart all it's due

Right now it seems so far away  
But I could never stop believing  
The hope within me is alive today  
I'll stick around I ain't leavin'

I know it's hard to be misunderstood  
And I'm glad you read between the lines  
I've tried to be the best friend that I could  
Ain't no more cause for passin' time

Maybe I ain't got the golden touch  
The kind that's music to your ear  
What gain would I have not much  
For the words you wanna hear  
Keep your distance now and stand your  
Guard  
Though I never meant to threaten you  
You've played your hand I've seen your  
Cards  
What happens now is up to you

Oh darlin' - hold on  
Take it another step further along  
Rest assured when your life is through  
You gave your heart all it's due
