We have come to worship You, hallelujah
We have come to worship You, holy One of God
By Your love and by Your grace, hallelujah
We enter in to the Hold Place, the Holy Place of God

We have come to worship You, to worship You in spirit
We have come to worship You, to worship you in truth
We have come to worship You, to lay our lives before
You Father
May our hearts be pure to You, as we come to worship
You

(repeat first verse)

(repeat second verse)

(repeat second verse)

May our hearts be pure to You, as we come to worship
You
