Ride with me
In this old Limousine
I'm rich with no money

Can't you see
Everyones trying to be somebody
They can't be

Oh Baby don't you know!

We're all famous
Isn't everybody famous
We're all famous now!

Almost save yes
All the people in are praises
We're all famous now!

Dark and Shine
But they cut, so we bleed
For none and for greed

Life the seeds
The love is not a mystery
Oh Baby! Walk with me!

We're all famous
Isn't everybody famous
We're all famous now!

Just like shoot and playing
When the love is fall in pieces
We're all famous now!

Solo

We're all famous
Isn't everybody famous
We're all famous now!

Almost save yes

All the people in are praises
We're all famous now!

Just like shoot and playing
When the love is fall in pieces
We're all famous now!

And all most famous
Cause the love is took and changes
We're all famous now!

We're all famous

We're all famous
Isn't everybody famous
We're all famous now!

It's the famous
For the love is took and changes
exclude the line apart

Times could changes
It's all when you feeling
Just gotta try stay in love

Living Love
Living Trust
Living Trust and Love
It's gonna be all right
