Lately I've been sleeping
Far too long in bed
I've been dreaming of you lover
Oh the things inside my head

I don't want to wake up
I'm scared to break the spell
Oh I'm sleeping like a baby
I hope you sleep so well

You know I'm hoping, hoping

I know there's a dream for us
I know there's a dream for us
I know there's a dream for us
Been on our minds
I know there's a dream for us
I know there's a dream for us
I know there's a dream for us
We're gonna find

I know there's a dream for us
I believe it's true
In a word, love you
And I'm hoping our dream comes true

You know I'm hoping, hoping

Miracles and moonbeams
Wishes on a star
These are things I dream of, I know it sounds bizarre
I see familiar faces, or is it deja vu
The one recurring vision
Is a dream I have of you

You know I'm hoping, hoping

I know there's a dream for us
I know there's a dream for us
I know there's a dream for us
Been on our minds
I know there's a dream for us

I know there's a dream for us
I know there's a dream for us
We're gonna find

Come on now baby

I know there's a dream for us
I believe it's true
In a word, love you
And I'm hoping our dream comes true

When you find someone
You find someone you love
You know you can't believe it
When you find someone
You know you can't deceive it
Your love takes you high

I know there's a dream for us
I'm sure there's a dreams for us

I know there's a dream for us
I believe it's true
In a word, love you
And I'm hoping our dream comes true
