She's a modern girl
Out to rule the world
and nothing can stop her now
She knows what she wants
and she's out to get it
She's a modern girl

Life is hard in a Midlands town
For a girl with her head in the clouds
Everybody puts her down
She's just one of the crowd

She finds it aint easy
To stand on her own two feet
It aint easy
She knows this time she wont be beat

She's a modern girl
Out to rule the world
and nothing can stop her now
She knows what she wants
and she's out to get it
She's a modern girl

Now its time for her to find
The way its always been
Love is just a word to her
Another broken dream

She finds it aint easy
To stand on her own two feet
It aint easy
She knows this time she wont be beat

She's a modern girl
Out to rule the world
and nothing can stop her now
She knows what she wants

and she's out to get it
She's a modern girl

[Instrumental]

She finds it aint easy
To stand on her own two feet
It aint easy
She knows this time she wont be beat

She's a modern girl
Out to rule the world
and nothing can stop her now
She knows what she wants
and she's out to get it
She's a modern girl

She's a modern girl
Out to rule the world
and nothing can stop her now
She knows what she wants
and she's out to get it
She's a modern girl

She's a modern girl
Out to rule the world
and nothing can stop her now
She knows what she wants
and she's out to get it
She's a modern girl
