Roo, roo, roo  
Roo, roo, roo  
Roo, roo, roo

Here we are  
Ridin' high  
We've come so far  
We can touch the sky

So why can't we live together?  
Can't we be friends?  
Why must we fight our brothers  
Til' the bitter end?

We really got a problem  
We don't know how to fix, yea  
There ain't no special reason  
We just can't do it

Talk to me  
Scream and shout  
Trust in me  
We can work it out

We all know the world keeps turnin'  
One day at a time  
Easier lessons for leavin'  
We just couldn't find

We really got a problem  
We don't know how to fix but then yea  
There ain't no special reason  
We just can't do it

So why can't we live together?  
Can't we be friends?  
Why must we fight our brothers  
Til' the bitter end?  
Ooh, yea  
Won't you trust in me?  
I know we can make it, yea

I close my eyes and look inside  
For a picture of how it should be  
And I wonder if you could see what I see  
Would you ever choose to live the way you do

We really got a problem  
We don't know how to fix but then yea  
There ain't no special reason  
We just can't do it

We really got a problem  
We don't know how to fix but then yea  
I know we got the pieces  
But they just don't fit

We really got a problem  
We don't know how to fix this  
I know we got the pieces  
We just can't do it
