The story begins like a Dickens Novel, David  
Copperfield "I am born"  
And naw nigga we all just can't get along  
5996 A-L The Year of Light Illuminati borner on a New  
World Order  
And a nigga fight the struggle sorta kinda on some  
rappin' shit  
But real activists be on death watch like Mumia Abu  
Jamal  
Ain't this a bitch y'all figure  
It only takes a trigger and 12.98 plus tax to potentially  
murder 50 niggas  
So motherfuckers better duck like Daffy  
Cause nowadays the average nigga think they Butch  
Cassidy  
And the Sundance Kid, doin' bids with no remorse  
It's almost methodical, education is false assimilation  
Building prisons is more economical, so your niggas in  
gang modules  
Be giving more head than hair follicles  
And niggas like myself know the ledge and still jump  
like Geronimo  
Huh supreme mathematics and bad habits  
Cause chasing cabbage keeps a nigga savage  
Blame it on the disease, we all got the symptoms  
Most of us niggas wanna be pimps but Uncle Sam  
really pimpin' them

Hook:

Naw they don't feel you, but what you don't know can  
kill you (X4)

The planet revolves, supposedly, man evolves  
But no promblem is solved, cause man is the cause  
For the sake of eugenics biochemists create  
ethospecific epidenmics  
Injecting the public in clinics  
Then when the truth comes out "You black people are  
so paranoid"  
But WHO murdered Africa the World Health  
Organization

Before 1978 there was no blood with AIDS  
contamination  
It ain't little green monkeys  
It's little white honkeys crossing bouing leukemia with  
sheep visnna virus  
As set tore out the iris of Horus, and Isis loved Osiris  
Blackmen is blinded, while blackwomen look for real  
men but can't find it  
Sometimes I think to myself "Why'd I even bring a child  
into this world?"  
I pay taxes so Bill Clinton can slang crack in Arkansas  
buy gold imported  
from South Africa  
But I don't eat swine  
And beat the living shit outta skinheads  
So where's my piece of mind?  
A swiss watch, leasing a Lex on credit  
All the liquor and pussy a nigga can get  
Put together a this puzzle but my pieces won't fit what  
the fuck?

Hook (x2)

Now shit gets no realer, reality dictates fate  
Gobal Policy 2000 by then, the planet depopulates  
By about 1 billion men women and children  
By whatever means necessary  
Wars, diseases, starvation, plagues etc.  
Set ya watch and watch Lord Matreya ascend  
Been in effect since before George Washington  
Monument  
An obelisk the 3300 pound capstone semi conceals the  
Masonic seal I'm  
knowin'  
But it's like trying to stop the sun from shining  
Soul on Ice damned if I do and fucked if I don't  
Dog eat dog like Jeff Dauhmer  
And most brothers ain't soilders cause you gots no  
code, you gots no honor  
Wanna build an empire blood sucking me too get richer  
So B, what's getting 6 figures when ya fuckin' with bitch  
niggas  
I ask you don't make me gay bash you  
So the longer I live the less love I have to give  
And the tragedy is it's a vicious cycle everybody's  
caught up the vortex  
So we try to cash more checks and have more sex  
The problem gets worse but a solution ain't clear  
And we been sayin' the same shit for 650 years  
What the fuck?
