You were borrowed from above  
To fill my life with love  
For a moment  
Then that moment was gone  
From the anger to the tears  
Always questioning the never years  
I can see it now  
You dancing on the clouds

Baby Angel baby Angel fly  
Letting go even though  
I don't want to  
Letting go cause I know  
Heavens Waiting for you  
Baby Angel baby Angel fly

Fly where the gates of love are open  
Fly now the hands of God will hold you  
Hold you cause I can't hold anymore  
Baby Angel baby Angel fly  
Letting go even though  
I don't want to

Letting go cause I know  
Heavens Waiting for you  
Baby Angel this ain't goodbye  
Baby Angel baby Angel fly  
FLY, FLY just fly  
Baby Angel FLY
