"Better"

Visit "[Better](#)" on MotoLyrics.com

She's like that first sip of coffee
The first drag on a cigarette
She's like that morning sun shining
Dancing on the ocean but better

Top down on an open Highway
Free falling on the radio
She's like that midnight sky
With the stars burning bright
But better yeah better

Chorus:
Better than Sun shining down on my shoulders
Feet in the water
Not a cloud in the sight
Kind of like the first time we were together
And love was the answer
It's that the feeling of forever oh but better

Poets, Kings and Cowboys
Talk about it
You hear new love song everyday
Bout Walking the line a little tenderness
They've all tried but they missed

Chorus:
Better than Sun shining down on my shoulders
Feet in the water
Not a cloud in the sight
Kind of like the first time we were together
And love was the answer
It's that the feeling of forever oh but better
