[Chorus]

Come make war on every other lover
Hedge me in, come build Your wall of fire
Come make war on every other lover
Hedge me in, come build Your wall of fire
Around my heart

[Verse 1]

No more sleeping love, no more sleeping bride
No more white washed tombs with the bones inside
There's a new breed rising with fire in our eyes
We ain't scared of nothin' 'cause we've
already died

[Verse 2]

Young ones full of visions, old ones dreaming dreams
Be warned all you judges, be warned all you kings
Rid the land of altars setup to other gods
Blow the trumpet in Zion, awaken every heart
