[Chorus]

Pioneer, Pioneer  
Keep pressing onwards beyond your fears  
And only your Father goes before you to your own  
frontier  
You're a Pioneer

[Verse 1]

Uncharted wilderness stretches before you  
And you thrive on going where no one has gone  
Still it gets lonely when darkness rears  
So sing by the fire until the dawn

[Chorus]

[Verse 2]

You travel light and you travel alone  
And when you arrive nobody knows  
But your Father in heaven, He is glad you can go  
Cause those who come after you will need the road

[Chorus]

[Verse 3]

And what you have done, others will do  
Bigger and better and faster than you  
But you can't look back, you gotta keep on pressing  
through  
There's a wilderness pathway and it's calling you

[Last chorus]

Calling you, calling you  
Keep pressing onwards, you can't stay here...  
And only your Father goes before you to your own  
frontier  
You're a Pioneer
