She self made, I'm self made  
We're made for each other,...  
They calling me the hottest in the game,  
Never the gold, I wanted gold plated chains  
Have sex on a highway in the lexus  
Suck her neck before I eat her like she's breakfast  
Never mind the rumors baby this is me and you  
... balling 50 on them pretty shoes  
With foreign names, valley...  
Different positions, but she still moaning the same  
Millie on my neck, coming through that check  
Rose in effect, no I didn't make her wet  
Roses by the dozen, everyday I'm hustling  
Blowing money fast looking like I'm saving nothing  
Let's take another trip, different continents we touching  
Niggas getting flipped, I get them done for nothing  
Shout out to joe and chris,... my wrist  
I'm still seeing bricks like it's still '86  
Over 20 homes, but I need a chick  
And she got the bomb, I'm talking tic tic  
She got the bomb, I'm talking tic tic  
And if you feel I'm wrong, baby you should tell me this

Don't you be holding back your love, don't you be  
holding back  
Cause in the end girl you come for another round,  
another round  
Girl you're gonna want another round, another round,  
I used to want you and her and her and her and her  
and you  
I used to want you and her and her and her and her  
and you  
... need you baby,...  
I'm talking...

Listen,... papy chulo bout to show you what you been  
missing  
Sex is just a weapon,... this pistol  
I cannot believe... young and tripping  
Why you trying to read me, if you see that isn't any  
issue

... at a polo with no logo  
Let's have a toast for this new love  
I scoop you up...  
Truthfully don't do much, but with you trying do  
something  
Peotic genius,... my latest feature prolly got these  
haters grieving...

Don't you be holding back your love, don't you be  
holding back  
Cause in the end girl you come for another round,  
another round  
Girl you're gonna want another round, another round,  
I used to want you and her and her and her and her  
and you  
I used to want you and her and her and her and her  
and you  
... need you baby,...  
I'm talking...

And I'ma be... she's the fliest here,...  
All the ladies bad,... she glammed up,...  
She seem a little brave, but I sense the fear  
Her defense is up but wishing that it disappears  
... for one who doesn't care  
She say all men treated her wrong way  
Yeah, I know, that's what they all say  
But I get you, I bang with you the long way

Don't you be holding back your love, don't you be  
holding back  
Cause in the end girl you come for another round,  
another round  
Girl you're gonna want another round, another round,  
I used to want you and her and her and her and her  
and you  
I used to want you and her and her and her and her  
and you  
... need you baby,...  
I'm talking...
