For so long we did our best  
We gave everything that we had babe  
We tried so hard to live together babe  
When did a good thing go bad?

Chorus:

Baby it's over now  
Wipe away your tears girl  
We had it it all babe  
I guess we got lost on the way  
Baby, why is it over now?  
After all these years, girl  
We had it all babe  
We lost it somewhere on the way  
Long ago we decided  
If we couldn't make it last  
We'd let it go  
Held onto each other for way too long babe  
And now we got nothing to show

Chorus
